

RAF Spilsby Memorial

We were thrilled to be commissioned to produce this beautiful war memorial in Portland stone.

We were given photos of the RAF Squadron Insignia's which were then transferred to laser cut stencil media.

All the lettering was carried out in house by Mark Hibbitt.

The completed stones were then loaded onto our own purposely made truck ready to be fixed by the lorry mounted crane.

The stones were fixed on site only two days before the unveiling as requested by the client to keep it from public view until the ceremony.
